

CONVERT YOUR EARTH DRILL INTO A HANDY LOG SPLITTER

It's quick and efficient. The Auger Torque Log Splitter makes light work of processing and recycling those fallen trees into manageable pieces, ready for recycling.

CONICAL PROFILE

The conical shape quickly works its way through, splitting the timber.

SELF GUIDING

The self-guiding threaded body engages with the timber, drawing the Log Splitter into the log.

NO MAXIMUM LOG LENGTH

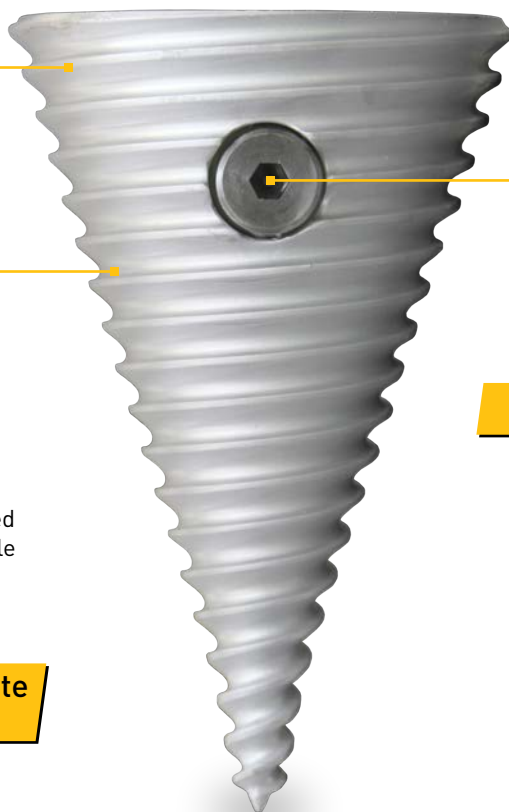

The Log Splitter can be repositioned to continue the split along the whole length of the log.

SINGLE FIXING POINT

Securely fix to the Log Splitter to your existing Earth Drill.

COMPACT AND ROBUST

A solid one piece construction for a sturdy, reliable tool.
